

CASCADA

SUMMER IS A STATE OF MIND

Whatever the summer brings, you'll be ready to make the most of it in the Cascada. When the sun shines so does this full-size, four-seater convertible. Its high-quality fabric hood opens in just 17 seconds, even at 30mph. The moment the weather turns, the thermal protection of the triple-layer roof can be deployed in 19 seconds. And all the while you'll enjoy knowing that when the sunshine makes a comeback, the convertible experience is just moments away.

The vehicles illustrated within this brochure may not necessarily represent the correct final UK specification and not all the features described are available on every model.

Cascada

DESIGN THAT INSPIRES

With its seamless, streamlined profile, the Cascada is that rare thing: a convertible that looks just as stylish with the roof up or down. Yet thanks to its outstandingly rigid sports chassis and HiPerStrut front suspension, the soft top doesn't cost you an ounce of dynamism or driveability. We have deliberately engineered the Cascada to combine the broad stance and elegant lines of a luxury cabriolet with the cornering, control and responsiveness of a hard top. So you can enjoy an inspiring driving experience, rain or shine.

DETAIL THAT MAKES A DIFFERENCE

Developed with comfort and practicality in mind, the Cascada's interior is modern and well-equipped. Soft-touch Morrocana dashboard, colour-contrasted seat piping and real stitching add a sense of luxury and style. And technology plays its part too. Electronic seat belt presenters automatically push the belts forward when you turn on the ignition. While the easy entry front seats electronically move forward making it easier for passengers to access the rear seats. Added practicality comes from intuitive features like FlexFold, folding rear seats that are released electronically to expand the already useful 350 litre boot, meaning the Cascada can handle the loads of everyday life.
