

ASTRA GTC

2013 Models Edition 1

Proud Sponsor of Home Nations Football

WELCOME TO A LIFETIME OF FORWARD THINKING

1903 – Forward thinking has been in our nature from the very start. The 6HP, our first ever car, had two forward gears. And no reverse.

1922 – The Silver Arrow OE 30-98 was capable of speeds of over 100mph, this model was built for shipping magnate Sir Leonard Ropner to race at Brooklands.

1937 – The Vauxhall 10' H-type, the first British car to have integral construction.

1971 – The formation of Dealer Team Vauxhall (DTV). The track car was the precursor to our enormous success in touring car racing.

1957 – The PA Cresta introduced Americana styling to the UK.

1984 – The MkII Astra introduced class-leading aerodynamic styling that still looks good today. The Formula Vauxhall Lotus ran a modified version of the Astra GTE's 2.0i 16v engine.

1999 – The Zafira introduced the revolutionary Flex7® seating system inventing the seven-seat compact MPV.

2012 – Ampera. The first ever Extended-Range Electric Vehicle (E-REV) that redefined electric vehicle innovation leading to it being voted European Car Of The Year 2012.

1990 – The Calibra was the world's most aerodynamic production car.

Scan this QR code with your smart phone for more information on the last 100 years of Vauxhall innovation. Don't forget to download a QR reader from your app store first.

1989 – The Lotus Carlton was the world's fastest production four-door saloon.

The world was a very different place in 1903 when Vauxhall made its first car. We steered with tillers, not wheels. Six horsepower was considered pretty nippy. And King Edward's face was still on the stamps. But for us, one important thing hasn't changed: we started out with a philosophy of Forward Thinking and, more than 100 years later, it still motivates everything we do. Who knows what innovations the next 100 years will bring?

The Vauxhall Lifetime Warranty. There's one thing every owner of a new Vauxhall can rely on. We're so confident in Vauxhall quality and reliability that we are now able to offer a lifetime warranty. It's available to the first owner of all our new Vauxhall passenger cars and valid for the lifetime of the vehicle up to a maximum of 100,000 miles. So you've got year after year of carefree driving to look forward to...

Please see back cover for full details of the Vauxhall Lifetime 100,000 mile warranty.

FREE YOUR SPIRIT

Astra GTC. The designer's dream made reality. With a choice of models, from effortlessly sporty to positively engaging. Brilliantly in tune with your driving emotions, Astra GTC takes Vauxhall's dynamic performance mindset to the limit, with striking details and an unashamedly full-on attitude. Astra GTC: never have three small letters promised so much excitement.

This brochure covers Astra GTC Sport, SRi and BiTurbo models only. Some of the models shown include options and accessories available at extra cost. And not all of the features described are available on every model. So for all current model or equipment details visit the Vauxhall website: www.vauxhall.co.uk. The colours reproduced throughout this brochure may vary slightly from the actual paint colour. As a result, they should be used as a guide only. Your Vauxhall Retailer has a comprehensive display of our paint samples.

UNLEASH YOUR PASSION

Whichever way you look at it, the Astra GTC oozes excitement.

Those ground-hugging lines and powerfully sculpted alloys provide a clear pointer to the car's innate sporting potential – a potential borne out by driver-focused dynamics and precision sports chassis and epitomised by the new BiTurbo model.

Model illustrated features 20-inch alloy wheels, optional at extra cost.

MAKE YOUR MARK

New Astra VXR. With its drop-dead styling, race-bred interior, a bespoke chassis developed at the renowned Nurburgring and electrifying performance from a 280PS two-litre turbocharged direct injection engine, it's sure to deliver the kind of driving experience that more than lives up to the VXR name.

VXR.co.uk

Models illustrated feature VXR Leather Seat Pack, Premium Forward Lighting Pack and VXR Aero Pack, consisting of bi-plane rear roof spoiler, extended side sills and 20-inch alloy wheels, optional at extra cost.

ENERGISE YOUR SENSES

The Astra GTC's pure and overtly sporting exterior receives a powerful echo throughout the interior's strong lines, with defined textures, unique Astra GTC sports detailing and unashamedly proud contours. Premium quality design cues combine with advanced features to create a sporty yet spacious driving environment guaranteed to invigorate your whole driving experience.

SHARPEN YOUR RESPONSES

Astra GTC: beautifully balanced, above and below the skin. With a bespoke sports chassis, specifically tuned to the demands of UK roads. Featuring HiPerStrut (High Performance Strut) front suspension and Watt's link rear set-up. The HiPerStrut system improves grip and allows more power to be applied during cornering, significantly reducing torque steer; the Watt's link reduces lateral movement at high speed for a smooth and stable ride. The new Astra GTC BiTurbo features an uprated sports chassis that rides 6mm lower. Optional FlexRide adds even greater precision to the Astra GTC driving experience. Just the mere touch of a button changes the whole driving dynamic to taut sporting excitement or relaxed long distance cruising. See page 15 for more detail.

➤ EXPLOIT YOUR AGILITY

Poised, engaging and precise, the Astra GTC chassis establishes the agile, spirited feel that characterises the car as a whole. Better still, the suspension has been carefully tuned to suit the specific demands of UK road surfaces, using specialist input from renowned chassis experts.

Class-leading Sports suspension. Front-wheel drive cars with powerful engines place excessive demands on conventional McPherson strut front suspension systems. Under heavy acceleration – especially in tight bends – front traction is compromised, resulting in torque steer which can affect the car's stability. The compact HiPerStrut (High Performance Strut) system – already seen in Insignia VXR – isolates the steering from the effects of engine torque, boosting steering precision and grip. It also improves handling and enhances ride quality. The compact Watt's link rear suspension delivers the stability benefits of multi-link systems without their weight and space penalties.

Optional FlexRide chassis settings. With a mere touch of a button, this optional feature allows you to change the Astra GTC's whole driving dynamics – from 'Sport' to 'Tour' and back again. Using Continuous Damping Control (CDC) technology, FlexRide automatically adjusts the dampers for excellent grip. In 'Tour' mode, it chooses the best settings for gentler straight-line driving. Switch to 'Sport' mode and it instantly sharpens the response of the speed-sensitive steering, accelerator and automatic transmission (if fitted). It also changes the colour of the ambient instrument lighting – from a cool white to a more dynamic red effect.

➤ MAXIMISE YOUR RESOURCES

The Astra GTC not only looks great but is terrific to drive and offers superb fuel economy and performance without the need to make concessions on driving dynamics. New to Astra GTC, the 1.7CDTi 16v 110PS and 130PS ecoFLEX units boast among the lowest vehicle CO₂ emissions in their class, with fuel-saving Start/Stop technology helping to reduce such figures to as little as 109g/km. So not only do you save money on Vehicle Excise Duty (VED) and lower company car taxation but the improved fuel economy means you'll save on your fuel bills too.

The new Astra GTC ecoFLEX models provide conclusive proof that you can save money on your motoring without the need to compromise on outright performance and driveability.

And we haven't stopped there. We have been researching ways of developing new cars that are more efficient than ever before. The new Vauxhall Ampera*, Car of the Year 2012, is an Extended-Range Electric Vehicle (E-REV) that can drive up to 50 miles on battery power alone and over 300 miles utilising an on-board electric generator system.

Astra GTC. Tuned to suit your lifestyle... and your financial resources, too.

*For more information on Vauxhall Ampera please visit www.vauxhallampera.co.uk

Astra GTC

➤ FULFIL YOUR POTENTIAL

Visually, Astra GTC takes your breath away. Performance-wise, Vauxhall's sensational new arrival carries your strongest emotions in its wake. The potential is limitless.

Astra GTC drivers can now choose from nine powerful yet efficient turbocharged engines – each matched to a slick six-speed transmission or – on selected power units – a six-speed automatic. The new 195PS BiTurbo diesel Start/Stop engine develops an impressive 400Nm and features two staged turbochargers that work together in series to eliminate turbo lag. There are also two versatile 1.7CDTi 16v common rail diesels developing 110PS and 130PS plus ecoFLEX versions of both these units. Or the highly flexible 2.0CDTi 16v common rail turbo diesel, good for an impressive 165PS. Petrol engine choices include a free-revving 120PS or 140PS 1.4i 16v VVT Turbo and a 1.6i 16v VVT Turbo, producing an uncompromising 180PS.

Start/Stop technology. With power comes responsibility.

So Astra GTC also features Vauxhall's cutting edge Start/Stop fuel saving and emissions reduction technology. The innovative system switches the engine off when you stop at the lights or in traffic, then restarts it automatically once the clutch is depressed. A wide range of in-built safety checks ensures total peace-of-mind in all circumstances. It's fitted to all manual Astra GTC models except the 1.6i 16v Turbo version.

➤ INTELLIGENT LIGHTING FOR EVERY ENVIRONMENT

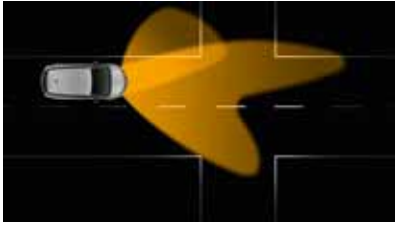

The Astra GTC features an enhanced, fourth generation of the Adaptive Forward Lighting System. The AFL headlights change their pattern to suit the location and the weather. Sensing where you need the light most, they can even see round corners. And if something is coming the other way, they dip automatically.

Intelligent Light Ranging (ILR). Available as part of the Driving Assistance Pack when AFL is also specified, ILR extends the range of both headlights up to about 350 metres at speeds over 30mph. ILR also automatically adjusts the spread to avoid dazzling oncoming drivers. And if you're approaching an upward gradient, it'll even raise the beam to give you a better view of the road.

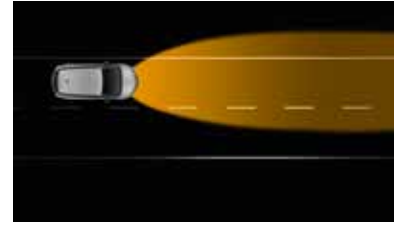

Advanced Adaptive Forward Lighting.

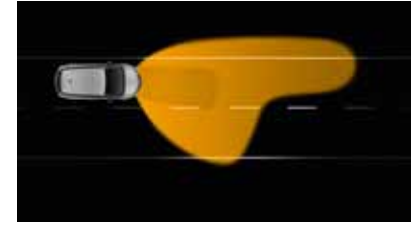

Static cornering light (up to 25mph, also when reversing). Throws light 90 degrees left or right for enhanced lateral vision.

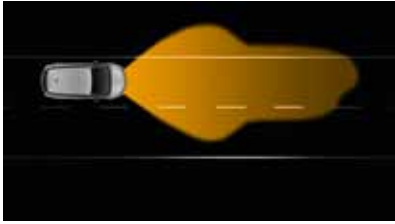

Dynamic curve light (any speed). Activated by steering angle and speed, the headlights swivel up to 15 degrees into the curve.

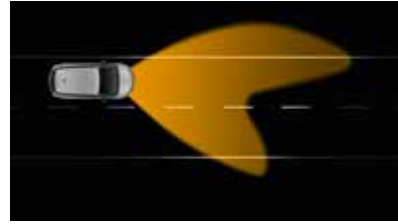

High beam with assist (over 25mph). Automatically switches from high to low beam as it detects oncoming or proceeding vehicles.

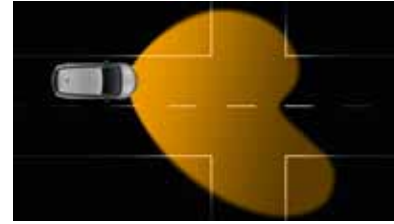

Adverse weather light (up to 45mph). Wiper or rain sensor activated for better vision in bad weather conditions.

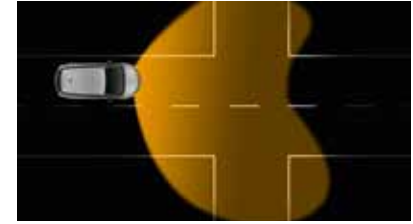

Motorway light (over 60mph). 140 metre range, higher and brighter than normal low beam, without dazzle.

Country road light (35-70mph). Wider spread and brighter light than normal low beam. 70 metre range without dazzle.

Town light (20-35mph). Wider and lower spread of light. Activated by vehicle speed together with street lighting.

Pedestrian area light (up to 20mph). Wider spread of light (an extra eight degrees left and right) illuminates potential hazards.

➤ SAFEGUARD YOUR INTERESTS

Astra GTC is a showcase for Vauxhall's high-tech safety features, with active and passive technology delivering invaluable peace-of-mind.

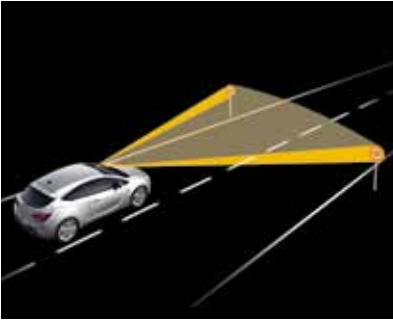

Astra GTC combines advanced electronic options with proven safety features like front, side and curtain airbags and reinforced passenger safety cell with pre-defined deformation zones. Select the Driving Assistance Pack option featuring the innovative front camera system and the Astra GTC will read the speed limit signs and display a reminder on the facia, helping you keep safe and legal. Leave your lane without a signal and it can also warn you – just in case you're tired or distracted. The system also constantly indicates the distance to the vehicle ahead, and alerts the driver if a collision is imminent.

1. Active-safety front seat head restraints. Minimise the risk of whiplash injury and guard against other head and upper body injuries.

2. Tyre pressure monitoring system (TPMS). Monitors the tyre pressure via sensors on the inner sides of the valves and activates a warning display if there is a loss of pressure. Optional at extra cost.

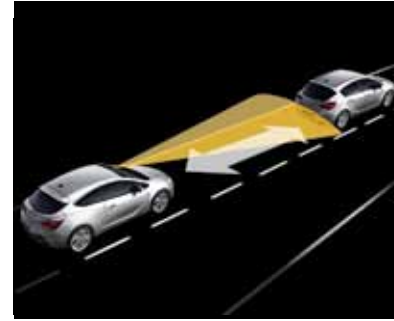

Traffic Sign Recognition (TSR).

Utilising the front camera function, this clever system makes sure you're constantly made aware of speed limits, even when temporary signs are put up. TSR continually monitors road signs, and gives you a warning if you unintentionally stray over the limit. It can even read and display motorway electronic signs related to speed limits like rain or snow warnings.

Lane Departure Warning (LDW).

LDW uses the front camera system to recognise lane marking lines, and emits an audible warning if your vehicle leaves its lane unintentionally (i.e. without you signalling), preventing potential accidents and reminding you of inattention or tiredness. The LDW system can be deactivated via a facia switch.

Forward Collision Alert (FCA).

Available as part of the Driving Assistance Pack, FCA constantly shows the distance to the leading vehicle in the instrument panel, helping you to maintain a safe distance. In addition, FCA – active when the car is moving faster than 20mph – gives visual and audible warnings if you approach a slower-moving vehicle too fast.

➤ **MANAGE YOUR SPACE**

Astra GTC combines stylish coupé character with genuine hatchback versatility. Comfortably seating up to five people – extremely comfortably if you specify the luxurious leather option – the Astra GTC is a surprisingly practical car for everyday use, with a generous 380 litres of luggage space to boot.

1 and 2. Generous storage features. Stowage facilities are abundant, including a driver's storage compartment (illustrated) situated under the main lighting control, roomy front door pockets, storage pockets on the front seat backs and an illuminated glovebox.

3. Versatile centre console. Providing practicality at your fingertips, all Astra GTC models feature a centre console unit complete with storage area and 12-volt auxiliary power socket. SRi and BiTurbo models boast an additional central storage facility with twin covered drinks holders (illustrated right).

SRi model (illustrated left) features: Leather Pack, satellite navigation system, Infinity® Premium Sound System, electronic climate control, rear parking distance sensors and FlexRide, optional at extra cost.

➤ IMPROVE YOUR DRIVETIME

Keep in touch, entertained and ahead of the queues with the latest premium Astra GTC in-car communication systems, featuring DMB digital radio as standard, aux-in socket, USB connection and optional Bluetooth® connectivity.

1. Navi 600 satellite navigation system with DMB digital radio. With its seven-inch high resolution colour display and sophisticated audio pedigree – including DMB digital radio – the Navi 600 brings SD card-based memory technology within easy reach of the Astra GTC driver. Navigation data and Points of Interest information is stored on the handy SD-card; this enables high-speed access and allows universal networking with mobile devices and digital data media. Beside fastest and shortest route, the most economical journey can be selected, taking factors like roof and trailer loads into consideration.

Other highlights include:

- CD player with MP3 format
- AM/FM stereo radio with 36 station presets
- 20 watts per channel output and seven speakers
- Steering wheel mounted audio controls

2. CD 400+. Standard across the range, the CD 400+ raises the bar for in-car entertainment units in this class. Highlights include CD/MP3 CD player, DMB digital radio, AM/FM stereo radio with 36 station presets, USB connection and aux-in socket, six speakers and a seven-band graphic equaliser. Excellent sound quality is assured too from a Digital Sound Processor and a 4 x 20W output. The DMB digital radio also means digital quality sound, a broader range of stations, easier to find by name and improved track display info on some stations. All Astra GTC models feature a 'Shark fin' aerial as standard too **3.**

4. Infinity® Premium Sound System. The ultimate in Astra GTC audio performance, with 7 x 45 watts (315 watts total), seven premium speakers and an eight-inch subwoofer. The Infinity system digitises the audio signal so it can be fine tuned with Digital Sound Processing (DSP) for accurate sound response. For you, the difference is better all-round sound production under all driving conditions.

Mobile phone portals. Stay in touch with a Bluetooth® connection or a fully integrated, 'embedded' system, both available with each of the audio units. The standard system features control from the steering wheel, or via voice phone control. The 'embedded' mobile phone system uses a Bluetooth® connection to copy the content of the mobile phone's SIM, such as the contacts and caller lists etc to the internal flash-drive – effectively transferring much of the phones capability to the vehicle itself. Both systems are optional at extra cost†.

† Not available in conjunction with optional panoramic windscreen.

➤ WHEELS AND TYRES

Impressive looks demand an impressive set of wheels and Astra GTC doesn't disappoint. Imposing 18-inch alloys are standard issue and stunning 20-inch designs top the options list.

STANDARD WHEELS

SPORT

18-inch alloy wheels with 235/50 R 18 low profile tyres.

SRI

18-inch alloy wheels with 235/50 R 18 low profile tyres.

BiTURBO

18-inch alloy wheels with 235/50 R 18 low profile tyres.

OPTIONAL WHEELS

SPORT

19-inch alloy wheels with 235/45 R 19 ultra-low profile tyres*.

SRI

19-inch alloy wheels with 235/45 R 19 ultra-low profile tyres*.

BiTURBO

19-inch alloy wheels with 235/45 R 19 ultra-low profile tyres.

Please note: A space-saver spare wheel is available at extra cost in lieu of the emergency tyre inflation kit (excludes BiTurbo models).

*Not available on 1.7CDTi 16v ecoFLEX Start/Stop models

20-inch alloy wheels with 245/40 R 20 ultra-low profile tyres*.

20-inch alloy wheels with 245/40 R 20 ultra-low profile tyres.

➤ CHANGE YOUR PERSPECTIVE

Whatever your view on cutting edge sports models, the optional Astra GTC panoramic windscreen will change your outlook forever. Stretching upwards and back beyond the ultra-slim A-pillars, the effect is stunning and helps create a whole new driving experience.

Panoramic windscreen. More than just a windscreen, it's a window on the world, extending way back over the front seats, with heat-absorbing glass. The effect is like nothing you've ever experienced before. There's also a full-length shading system with twin pull-out sunblinds should you need it.

> VXR STYLING PACK

By definition, Astra GTC owners are looking for something special. Our unique VXR Styling Pack lets you create something very special indeed.

1. VXR Exterior Styling Pack. VXR styling products allow you to connect with the performance and excitement at the heart of the VXR brand. Taking that same ethos as our brief we have created a definitive line-up of VXR styling products that will add a degree of individuality to any Astra GTC model (excludes BiTurbo and VXR models). The pack is available as a factory-fit option or as separate accessories fitted by your Vauxhall retailer.

2. Front lower spoiler. The classic choice for the sports enthusiast, the spoiler helps emphasise Astra GTC's distinctive ground-hugging front aspect.

3. Roof spoiler. This adds an extra sporty accent to the roof line. Also available as a separate option for both models.

4. Rear lower skirt and (5) side sills. With its broad wheelbase and low-slung chassis, Astra GTC provides the ideal platform for dedicated VXR styling products.

> EXTEND YOUR OPTIONS

You don't get an Astra GTC to decorate the front drive – you're going to demand a lot more from it than that! With a few well-chosen options, you can make sure you get a great deal more out of those hours spent on the road.

1. Ergonomic sports seat.* The Astra GTC's optional orthopaedic ergonomic six-way adjustable sports driver's seat – in luxurious leather – adjusts to suit your posture, perfectly. Both front seats feature superior side support plus, on the driver's seat, tilt adjustment, electric lumbar support and an extendable seat cushion. Better still, the driver's seat has won the coveted AGR** seal of approval for helping to prevent the in-car back pain and tension suffered by some car occupants. Additional seat option packs are available.

2. Adjustable seat cushion extension.* The ergonomic sports seat features an adjustable and extendable seat cushion for additional leg support when you're travelling long distances.

3. Electronic Climate Control ECC. Providing constant control of the interior atmosphere via an onscreen display, this fully automatic system features Dual Zone settings so you can set the ideal temperature for either side of the car.

4. Electro-chromatic anti-dazzle rear-view mirror. At night, sensors integrated within the internal rear-view mirror detect following headlights and adjust the brilliance of the reflection to remove glare. To assist parking, the mirror automatically returns to full reflectivity when reverse gear is selected. Standard on SRi and BiTurbo models.

*Only available as part of Leather Pack.

**Aktion Gesunder Rücken e.V (AGR) is an independent panel of ergonomics experts and doctors based in Germany.

➤ EXTERIOR COLOURS

From Summit White to Carbon Flash two-coat metallic, the Astra GTC colours exude excitement and energy – just like the car itself.

*Optional at extra cost.

➤ EXPRESS YOUR INDIVIDUALITY

Whatever you're into, there's certain to be a Genuine Vauxhall Accessory with your name on it, all fitted by trained Vauxhall professionals. We've featured just a small selection of what's available here, so please check with your Vauxhall retailer for Astra GTC accessory information or visit our website at www.vauxhall.co.uk/accessories

1. Cargo tray. Protect your Astra GTC's load area against messy loads with this sturdy boot liner. Specially designed for a tailored fit, it provides maximum protection yet is easily removed for cleaning.

2. Load-restraining floor net. Safeguard your load area and its contents: our elastic restraining net attaches to built-in lashing eyes and is designed to stop large items sliding around in the luggage area.

3. Thule surfboard carrier. Used in conjunction with the Vauxhall base carrier, these quality systems, manufactured by Thule, open up a range of attachments from roof boxes to surfboard carriers to be transported on the roof without damaging your vehicle.

4. Floor mats. Both rubber and velour floor mats (illustrated) are available for your Astra GTC. Both styles sport an Astra logo and have unique fixing points which help keep them firmly in place.

VXR styling accessories allow you to connect with the performance and excitement at the heart of the VXR brand. Taking that same ethos as our brief we have created a definitive line-up of VXR styling accessories that will add a degree of individuality to your Astra GTC.

Now you are able to browse all of the Genuine Vauxhall Accessories range with just the click of a button. Scan this QR code with your smartphone for more information. Don't forget to download a QR reader from your app store first.

*VED = Vehicle Excise Duty. Correct at time of publication.

Fuel consumption and CO₂ emission data complies with the relevant EU testing regulations used by vehicle manufacturers to enable comparisons between different models. **Important:** Please note fuel consumption can be affected by many factors including driving style, road and traffic conditions, vehicle mileage and standard of maintenance. In addition these results relate to the particular vehicle tested, inevitably there will be differences between individual vehicles of the same model.

Comprehensive specifications and technical data is available in the PDF price/specification guide available at www.vauxhall.co.uk under 'Request a brochure'

Tyre rating

Tyre size	Fuel efficiency group	Wet grip performance	External noise	
			Measured (dB)	Group
235/50 R 18	E	B	71	
235/45 R 19	E	B	68	
245/40 R 19	E	B	72	
245/40 R 20	E	B	71	
245/35 R 20	E	B	72	

Tyre rating according to EU Regulation 1222/2009

Smarter driving tips

- **Drive at an appropriate speed:** Staying within the speed limit increases driver safety, reduces CO₂ emissions and saves fuel. At 70mph you could be using up to 9% more fuel than at 60mph and up to 15% more fuel than at 50mph
- **Drive smoothly at all times:** Anticipate the ebb and flow of the traffic to avoid harsh acceleration and braking

- **Reduce your revs:** Change gear earlier to help reduce fuel consumption – try 2500rpm with petrol engines and 2000rpm with diesel
- **Idling is wasting fuel:** If you're likely to be at a standstill for more than three minutes, switch off the engine to save fuel
- **Regularly check your tyre pressures:** Under inflated tyres increase CO₂ emissions whilst incorrectly inflated

tyres can be unsafe. Always check your handbook for the correct tyre pressure. This will also help to increase the life of your tyres

- **Remove unnecessary items from the car:** Extra weight increases the engine's workload, whilst roof racks and bike carriers increase wind resistance. All burn more fuel and increase CO₂ emissions

Trust Vauxhall

Company Car Driver 3 Day Test Drive

Our free* 3 Day Test Drive programme is open to all Company Car Drivers which allows you to choose any model in the current Vauxhall line-up (excluding Mokka, all VXR models and Commercial Vehicles), with full insurance cover provided, to give you a meaningful length of time to make an informed decision about your next company car.

To book your free* test drive just log on to www.vauxhall3dtd.co.uk or call **0870 240 4848****

Fleet Customer Services

Our dedicated support services for fleet decision makers include factory demonstrators and information on whole life costs, company car taxation and finance.

For further information please call **0870 010 0651**.

For more information...

For a brochure on any Vauxhall model (up to a maximum of three per caller) or location of your nearest Vauxhall retailer please call **0845 600 1500**.

Proud Sponsor of Home Nations Football

*The free 3 Day Test Drive programme is open to Company Car Drivers and excludes fuel and lubricants, congestion charges, parking and speeding fines and the £250 insurance excess (if applicable). It features a wide selection of models from the Vauxhall range (excluding Mokka, all VXR models and Commercial Vehicles and subject to availability). Drivers must be aged 25 years or over, have held a full driving licence for at least a year and hold a major credit card. You will need to have your driving licence (and proof of identity (i.e. passport) where the driving licence is not a photocard licence) when your car is delivered. While every effort will be made to ensure that at least 3 days are provided for the test drive, this cannot always be guaranteed due to delivery and collection dates and timings. Available for UK Mainland only. Terms and conditions apply. **Telephone lines open Monday-Friday 9.00am to 5.00pm excluding Bank Holidays. Calls may be recorded or monitored for quality and/or training purposes.

†Vauxhall Lifetime Warranty covers lifetime ownership of first car owner, 100,000 mile limit, annual check required. The warranty excludes wear and tear and serviceable items and the vehicle must be serviced in accordance with the manufacturer's servicing schedule to continue the lifetime warranty. Terms and conditions apply. Offer available to all Vauxhall passenger cars (this offer does not apply to car-derived vans) from 1st August 2010.

Every effort has been made to ensure that the contents of this publication were accurate and up-to-date at the time of going to press (August 2012). Vauxhall vehicles are equipped with components manufactured by various General Motors operating units and outside suppliers. The Company reserves the right to alter specifications and withdraw products from sale without notice. Any such alterations will be notified to Vauxhall retailers at the earliest opportunity, please consult your local retailer for the latest information. The specifications detailed within this brochure are not necessarily applicable to alternative models such as Special Editions. Details of any such models will be contained in specific literature or found on the Vauxhall website. Please note that Vauxhall retailers are not the agents of General Motors UK Limited and are not authorised to bind the Company by any specific or implied undertaking or representation. It is advisable to ensure that your motor insurance policy provides adequate cover for additional fitted options and accessories. Please note accessories shown are for illustrative purposes only. Vauxhall Lifetime Warranty

We're so confident in Vauxhall quality and reliability that we are now able to offer a lifetime warranty. Available to the first owner of all new Vauxhall passenger cars, it's valid for the lifetime of the vehicle up to a maximum of 100,000 miles[†]. In addition, our warranty also includes Vauxhall Assistance for 12 months from first registration and six years body panel anti-perforation warranty. Full details of Vauxhall's warranties including terms, conditions and exclusions can be obtained through any authorised Vauxhall retailer or go to: www.vauxhall.co.uk/warranty
