## Weights\* (base vehicle) kg

Model	UK plated weights and kerbweights				Payload
	Front axle Plated	Rear axle Plated	GVW	Kerb	
LWB 3500 2.5CDTI 16v	1850	2060	3500	2860	640
LWB 3500 3.0CDTI 16v	1850	2060	3500	2900	600

## Interior dimensions\* mm (inches)

Loadspace	
Maximum length	3520 (138.6)
Maximum height	1900 (74.8)
Maximum width	1980 (77.9)
Width between wheel arches	1282 (50.5)

\* = **Please note:** Typical examples shown above. Weights and dimensions shown will vary dependent upon specification of the conversion. **Kerbweights** for standard vehicles include coolant, oil, 90% full fuel tank and spare wheel. They will vary according to the vehicle specification (including options and accessories) with a corresponding variation in payload. **Payload** figures do not allow for the weight of the driver, or any passengers, which should therefore be deducted from the figures shown. **Gross plated weights** (including axle weights) quoted on the vehicle plate must never be exceeded. Full specification, option and colour availability details of the Movano range appear in the Vivaro and Movano brochure available from your Vauxhall retailer or Lo-call 0845 600 1500.

## Conversion highlights

### Vauxhall Assistance and warranties\*\*

Every Movano base vehicle comes with:

- A one-year unlimited mileage manufacturer's warranty
- Second and third year no-fee customer option warranty up to 100,000 miles on base vehicles (from date of first registration)
- Vauxhall Assistance for 36 months from date of first registration
- Six years body panel anti-perforation warranty on base vehicles

\*\* = Warranty is only available on vehicles sourced from Vauxhall Motors Ltd. Terms and conditions apply – please see your Vauxhall Commercial Vehicle retailer for details.

### Vauxhall recognised conversions

These conversions have been fully tested to ensure they meet the exacting technical standards required by Vauxhall Motors Limited. The Myriad A&E ambulance has been fully tested and certified to meet the requirements of CEN (BS EN 1789).

Required tests for conformity include:

- 10G dynamic testing of the conversion witnessed worst-case
- Seatbelt anchorage testing witnessed to Euro Standards
- Full electromagnetic compatibility
- Interior noise levels and light intensity
- Fire retardancy in accordance with ISO 3795
- Performance testing of vehicle acceleration and interior heating

### Conversion features

Customers may select from the following pre-engineered standard items and extra-cost options:

- Fixed bulkhead with sliding communications window (walk-through extra-cost option)
- Offside wall fully fitted to individual requirements
- CEN compliant stretcher installation
