Vauxhall Approved Tyres

Keeping your tyres in good condition keeps you safe on the road and can help boost fuel efficiency and performance.

Our range of Vauxhall Approved Tyres deliver excellent grip levels and durability at highly competitive prices. As you would expect from Vauxhall.

We have an extensive range of tyres which cover general use, performance cars and light commercial vehicles available to buy online.

[FIND YOUR TYRES](#)

A quick and easy way to see if your tyres need replacing is to take the 20p test. Simply place a 20p coin into the main tread grooves of your tyre. If the outer band of the 20p coin can be seen when inserted, then your tyres need replacing.

AdBlue[®] top-up

Vauxhalls fitted with the BlueInjection system need AdBlue[®].

BlueInjection is a cutting-edge technology, requiring AdBlue[®], which is fitted to Vauxhall diesel engines and reduces harmful NOx emissions, and in turn reduces your environmental footprint.

A light on your dashboard will inform you when levels are running low. At which point, head to your local participating Vauxhall Retailer where we will top-up the AdBlue[®] for you.
