MERIVA COMPANY CAR DRIVER/FLEET INFORMATION

MERIVA TECH LINE. HIGH SPEC, LOW P11D

High spec. Impressively low P11D values. Our new Tech Line models are highly desirable to both Fleet Decision Makers and Company Car Drivers. With CO₂ emissions from just 129g/km and fuel consumption of up to 57.6mpg (combined) Tech Line's impressive standard specification includes front and rear parking distance sensors, Bluetooth®, heated front seats and a heated leather-covered steering wheel.

COMPANY CAR DRIVER FREE* 3 DAY TEST DRIVE

Our free* 3 Day Test Drive programme is open to all Company Car Drivers which allows you to choose any model in the current Vauxhall line-up (excluding all VXR models and Commercial Vehicles), with full insurance cover provided, to give you a meaningful length of time to make an informed decision about your next company car.

Click below to book your free* test drive
www.vauxhall3dtd.co.uk
 or call 0870 240 4848**

*The free 3 Day Test Drive programme is open to Company Car Drivers and excludes fuel and lubricants; congestion charges; parking and speeding fines and the £250 insurance excess (if applicable). It features a wide selection of models from the Vauxhall range (excluding all VXR models and Commercial Vehicles and subject to availability). Drivers must be aged 25 years or over, have held a full driving licence for at least a year and hold a major credit card. You will need to have your driving licence (and proof of identity (i.e. passport) where the driving licence is not a photocard licence) when your car is delivered. While every effort will be made to ensure that at least 3 days are provided for the test drive, this cannot always be guaranteed due to delivery and collection dates and timings. Available for UK Mainland only. Terms and conditions apply. **Telephone lines open Monday-Friday 9.00am to 5.00pm excluding Bank Holidays. Calls may be recorded or monitored for quality and/or training purposes.

FLEET TOOLBOX

Discover the facts in our online Toolbox for both Company Car Drivers and Fleet Decision Makers. The Fleet Toolbox has a host of useful calculators, comparators, interactive listings and information. Visit the Fleet Toolbox by going to www.vauxhall-toolbox.co.uk

BENEFIT IN KIND COMPANY CAR TAXATION†

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO₂ emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20% for Basic Rate, 40% for Higher Rate for 2012-13 tax year) to calculate your annual benefit in kind tax liability.

Example:

Meriva Tech Line 1.3CDTi 16v (75PS) 5-door MPV (CO ₂ emissions 129g/km)	
On-the-road RRP	£15495.00
Deduct: Vehicle Excise Duty	(£0.00)
New vehicle first registration fee	(£55.00)
Effective list price	£15440.00
Add: Optional two-coat metallic paint	£525.00
List price for tax purposes (P11D value)	£15965.00

Car benefit charge	
2012-13 tax year (19%)	£3033.00
Benefit in kind tax liability (2012-13 tax year)	
Basic Rate (20%) tax payer	£606.00
Higher Rate (40%) tax payer	£1213.00

SATELLITE NAVIGATION

The Navi 600 satellite navigation system, offers dynamic route guidance via RDS-TMC (Traffic Message Channel) with directions given audibly and via the 7-inch colour monitor. TMC is a specific application of RDS used for broadcasting real-time traffic information. It alerts the driver to a problem on the planned route and calculates an alternative route to avoid the incident.

In addition to route planning criteria such as 'shortest distance' or 'avoiding toll roads', you can now select an energy-optimised 'green route'. Here you can specify parameters such as if you are towing a caravan or have a roof box fitted. The system will use this information, in conjunction with known factors including your vehicle's weight and engine type, to calculate the most fuel-efficient route.

The SD card supplied with the system covers all major link roads and streets in towns and cities across mainland Britain and Ireland, plus trunk and main roads across more than 30 European countries. Additional country-specific maps with street level detail are available to download.

AUX-IN SOCKET

The aux-in socket allows you to connect your portable MP3 music player directly into the car's audio system. All you need is your music player and a suitable connecting lead and you can listen to all your favourite tunes through your car's speaker system. Using your MP3 music player in the car couldn't be easier – use it to select the music, as you would normally do, while controlling the volume via the car's regular volume controls.

USB CONNECTION

Fitted as standard on Meriva S, Exclusiv, Active, Tech Line and SE models, the USB connection is located alongside the aux-in socket in the centre console. It provides iPod control and read-out of iPod functions through the audio system display. Traditional aux-in sockets only allow control of volume through the car's audio system. The USB connection also means that the iPod will charge whilst it is connected.

MOBILE PHONE SYSTEM WITH BLUETOOTH®

Fitted as standard on Meriva Active and Tech Line models, available as an option on S, Exclusiv and SE, Vauxhall's factory-fit mobile phone system has been considerably enhanced. Now fully integrated into the audio and communication system, it also features voice control and will connect wirelessly to phones with Bluetooth® technology.

All the required information is displayed on the graphic information display when a mobile phone is in use, while the menus are easily navigated by either the steering wheel audio controls or the multi-function button on the radio. Certain functions can also be controlled by voice activation.

EMBEDDED MOBILE PHONE SYSTEM WITH BLUETOOTH®

This is the next generation of in-car mobile phone system. The mobile phone's contacts, caller lists and phone settings are downloaded to the in-car flash drive and, once this synchronisation is complete, the car effectively becomes the phone.

The mobile phone will sit in standby mode and the Bluetooth® function will no longer drain the battery, whilst all calls will be transmitted via the car's, rather than the mobile phone's, aerial.

Any alterations that have been made to the contacts, caller lists etc. whilst the units have been synchronised will be transferred back to the mobile phone.

Fuel consumption and CO₂ emission data complies with the relevant EU testing regulations used by vehicle manufacturers to enable comparisons between different models.

Important: Please note fuel consumption can be affected by many factors including driving style, road and traffic conditions, vehicle mileage and standard of maintenance. In addition these results relate to the particular vehicle tested, inevitably there will be differences between individual vehicles of the same model.

SMARTER DRIVING TIPS

- **Drive at an appropriate speed:** – Staying within the speed limit increases driver safety, reduces CO₂ emissions and saves fuel. At 70mph you could be using up to 9% more fuel than at 60mph and up to 15% more fuel than at 50mph
- **Drive smoothly at all times:** – Anticipate the ebb and flow of the traffic to avoid harsh acceleration and braking
- **Reduce your revs:** – Change gear earlier to help reduce fuel consumption – try 2500rpm with petrol engines and 2000rpm with diesel
- **Idling is wasting fuel:** – If you're likely to be at a standstill for more than three minutes, switch off the engine to save fuel
- **Regularly check your tyre pressures:** – Under inflated tyres increase CO₂ emissions whilst incorrectly inflated tyres can be unsafe. Always check your handbook for the correct tyre pressure. This will also help to increase the life of your tyres
- **Remove unnecessary items from the car:** – Extra weight increases the engine's workload, whilst roof racks and bike carriers increase wind resistance. All burn more fuel and increase CO₂ emissions

Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The maximum roof rack loading should not exceed 60kg. The maximum towing weights are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, maximum noseweight should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee.

ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include the recommended cost of number plates and delivery to a Vauxhall retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the retailer, motor insurance or any other goods or services supplied by agreement between the retailer and the customer.

PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. General Motors UK Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO₂) emissions produced by the vehicle. CO₂ emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

From 1 April 2010 the Government introduced a new 'first year rate' of Vehicle Excise Duty payable on all new cars. In subsequent years the amount of Vehicle Excise Duty payable will revert to the standard rate.

Vehicle Excise Duty*

	CO ₂ emissions	First year rate	Standard rate
Band A	up to 100g/km	£0.00	£0.00
Band B	101-110g/km	£0.00	£20.00
Band C	111-120g/km	£0.00	£30.00
Band D	121-130g/km	£0.00	£100.00
Band E	131-140g/km	£120.00	£120.00
Band F	141-150g/km	£135.00	£135.00
Band G	151-165g/km	£170.00	£170.00
Band H	166-175g/km	£275.00	£195.00
Band I	176-185g/km	£325.00	£215.00
Band J	186-200g/km	£460.00	£250.00
Band K	201-225g/km	£600.00	£270.00
Band L	226-255g/km	£815.00	£460.00
Band M	over 255g/km	£1030.00	£475.00

* = Correct at time of issue - 2 October 2012.

E10 FUEL

E10 fuel is cleared for use in all petrol-engined Vauxhall vehicles excluding models with the 2.2 litre direct injection petrol engine (code Z22YH) used in Vectra, Signum and Zafira models. Owners of these vehicles should continue to use regular unleaded or premium unleaded petrol.

PROTECTING THE ENVIRONMENT

Vauxhall's commitment to the environment is demonstrated by our products' many environmental awards. For even more information on Vauxhall's efforts to achieve an environmentally sustainable future, see www.vauxhall.co.uk/recycling
