## SAFETY

### Driver/passenger airbags

- Driver's airbag • Front passenger's airbag • Two front seat side-impact airbags
- Full-size curtain airbags for driver and front and outer rear seat passengers

### Seating

- Height-adjustable front and rear seat head restraints • Anti-submarining ramps in all seats – Prevents occupants sliding underneath the lap belt during a collision.

### Seatbelts

- Front inertia-reel lap and diagonal seatbelts • Three inertia-reel lap and diagonal rear seatbelts
- Front and rear seatbelt pretensioner system – Pretensioners tighten the seatbelt in the event of an accident limiting forward movement. • Front and rear 'seatbelt unfastened' audible warning and warning light

### Child safety

- Deactivation switch for front passenger seat's front airbag – Permits the safe use of a child seat in the front passenger seat. • ISOFIX child seat mountings incorporating top tether anchor points located on outer rear seats (does not include child seat) – Allows ISOFIX child safety seats to be securely fixed into the car. The ISOFIX mounting system reduces forward movement in an accident and makes the child seat easier to install. • Child-proof locks on rear doors

### Pedestrian safety

- Bonnet/headlight/wiper structure – Designed to reduce pedestrian head and upper body injuries.
- Upper and lower bumper design – Reduces upper and lower leg injuries.

### Stability

- Electronic Stability Programme (ESP) – Works in conjunction with the vehicle's electronic braking and engine systems to keep the car stable in many different situations. ESP monitors many different inputs to determine when the car starts to lose traction, it can then immediately respond by varying the brake pressure between up to three wheels and adjust the engine output to help correct the loss of traction and improve stability. ESP functions include: • Cornering brake control • Straight line stability control • Rollover mitigation • Drag torque control – Maintain stability on slippery roads when lifting off the accelerator or changing gear.

### Braking

- Anti-lock Braking System (ABS) – Prevents the vehicle's wheels from locking up under heavy braking by momentarily reducing brake pressure at the appropriate wheel, ensuring that you can maintain control of the steering. The same electronic systems used in the ABS and ESP also deliver exceptional braking performance. • Emergency brake assist – When emergency braking is detected the vehicle automatically applies the maximum possible braking assistance. • Fading brake support – Compensates for the effects of brake fade. • Electronic brakeforce distribution – Automatically apportions the optimum braking force to each wheel. • Adaptive brake lights – Automatically warns other road users of heavy braking. • Hill start assist – Briefly maintains rear brake pressure to stop the vehicle rolling back on an incline.

### Tyre pressure

- Tyre pressure monitoring system

### TRANSMISSION

- Front-wheel drive
- Five-speed manual gearbox – standard on all models
- Five-speed Easytronic transmission – The five-speed Easytronic 3.0 transmission is optional on VIVA SL only. Easytronic is a five-speed manual gearbox with no clutch pedal. In manual mode you simply push the lever forward or back to shift gears up or down, whilst in automatic mode Easytronic takes control. A new electro-hydraulic actuator operates the clutch for faster and smoother gear changes plus increased economy through computer optimised gear changes.

## BENEFIT IN KIND COMPANY CAR TAXATION†

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO<sub>2</sub> emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20% for Basic Rate, 40% for Higher Rate) to calculate your annual benefit in kind tax liability.

### Example:

VIVA SE 1.0i (73PS)  
(CO<sub>2</sub> emissions 117g/km)

On-the-road RRP	£10070.00
Deduct: Vehicle Excise Duty	(£160.00)

# VIVA ADDITIONAL INFORMATION

## ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00\*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

## PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

## VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO<sub>2</sub>) emissions produced by the vehicle. CO<sub>2</sub> emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. From 1 April 2017 the breakpoints for each of these bands have been revised. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £310 is payable for the first five years of standard rate payments.

### Vehicle Excise Duty\*

	CO <sub>2</sub> emissions (g/km)	First year rate	Standard rate
Band A	0	£0.00	£0.00
Band B	1-50	£10.00	£140.00
Band C	51-75	£25.00	£140.00

# VIVA FEATURES/OPTIONS

## SAFETY

### Driver/passenger airbags

- Driver's airbag • Front passenger's airbag • Two front seat side-impact airbags
- Full-size curtain airbags for driver and front and outer rear seat passengers

### Seating

- Height-adjustable front and rear seat head restraints • Anti-submarining ramps in all seats – Prevents occupants sliding underneath the lap belt during a collision.

### Seatbelts

- Front inertia-reel lap and diagonal seatbelts • Three inertia-reel lap and diagonal rear seatbelts
- Front and rear seatbelt pretensioner system – Pretensioners tighten the seatbelt in the event of an accident limiting forward movement. • Front and rear 'seatbelt unfastened' audible warning and warning light

### Child safety

- Deactivation switch for front passenger seat's front airbag – Permits the safe use of a child seat in the front passenger seat. • ISOFIX child seat mountings incorporating top tether anchor points located on outer rear seats (does not include child seat) – Allows ISOFIX child safety seats to be securely fixed into the car. The ISOFIX mounting system reduces forward movement in an accident and makes the child seat easier to install. • Child-proof locks on rear doors

### Pedestrian safety

- Bonnet/headlight/wiper structure – Designed to reduce pedestrian head and upper body injuries.
- Upper and lower bumper design – Reduces upper and lower leg injuries.

### Stability

- Electronic Stability Programme (ESP) – Works in conjunction with the vehicle's electronic braking and engine systems to keep the car stable in many different situations. ESP monitors many different inputs to determine when the car starts to lose traction, it can then immediately respond by varying the brake pressure between up to three wheels and adjust the engine output to help correct the loss of traction and improve stability. ESP functions include: • Cornering brake control • Straight line stability control • Rollover mitigation • Drag torque control – Maintain stability on slippery roads when lifting off the accelerator or changing gear.

### Braking

- Anti-lock Braking System (ABS) – Prevents the vehicle's wheels from locking up under heavy braking by momentarily reducing brake pressure at the appropriate wheel, ensuring that you can maintain control of the steering. The same electronic systems used in the ABS and ESP also deliver exceptional braking performance. • Emergency brake assist – When emergency braking is detected the vehicle automatically applies the maximum possible braking assistance. • Fading brake support – Compensates for the effects of brake fade. • Electronic brakeforce distribution – Automatically apportions the optimum braking force to each wheel. • Adaptive brake lights – Automatically warns other road users of heavy braking. • Hill start assist – Briefly maintains rear brake pressure to stop the vehicle rolling back on an incline.

### Tyre pressure

- Tyre pressure monitoring system

### TRANSMISSION

- Front-wheel drive
- Five-speed manual gearbox – standard on all models
- Five-speed Easytronic transmission – The five-speed Easytronic 3.0 transmission is optional on VIVA SL only. Easytronic is a five-speed manual gearbox with no clutch pedal. In manual mode you simply push the lever forward or back to shift gears up or down, whilst in automatic mode Easytronic takes control. A new electro-hydraulic actuator operates the clutch for faster and smoother gear changes plus increased economy through computer optimised gear changes.

### STEERING

- Speed-sensitive electric power-assisted system
- Switchable City Mode for additional assistance
- Energy-absorbing steering column
- Turning circle (kerb-to-kerb): 10.4m (34.1ft.)

### SUSPENSION

- Front:** Independent. MacPherson struts with gas-pressure dampers and linear-rate coil springs. Anti-roll bar.
- Rear:** Torsion beam with gas-pressure dampers and linear-rate coil springs.

# VIVA ADDITIONAL INFORMATION

## ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00\*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

## PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

## VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO<sub>2</sub>) emissions produced by the vehicle. CO<sub>2</sub> emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. From 1 April 2017 the breakpoints for each of these bands have been revised. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £310 is payable for the first five years of standard rate payments.

### Vehicle Excise Duty\*

	CO <sub>2</sub> emissions (g/km)	First year rate	Standard rate
Band A	0	£0.00	£0.00
Band B	1-50	£10.00	£140.00
